Die Grinder

RRG-1000RE / RRG-1000REL

RED ROOSTER die grinders are extremely suitable for deburring applications as well as weld seam finishing and general die grinding applications.

CHARACTERISTICS

- The RRG range of die grinders are developed for enhanced productivity.
- The composite motor housing allows the hand to grip the tool firmly due to the unique ergonomic design.
- The grinders have a rear exhaust.
- Air inlet with a swivel allowing the tool to be very flexible, especially in difficult access areas.
- When depressed fully the safety lever lays flat against the tool adding extra comfort for the operator.
