

RIVET NUT SETTER

RRI-PRN SERIES

RED ROOSTER Industrial pneumatic blind rivet nut setter. Very fast, with low air consumption per blind rivet nut. Lightweight and ergonomically designed for optimum working comfort. Air connection to be used either on the left or right side of the tool. The muffled exhaust is integrated in the base of the tool.

The composite housing is thermally insulating and fits comfortably in the hand. The rocker switch allows the machine to be used with one hand.

CHARACTERISTICS

- Fast
- Low air consumption
- Ergonomic and lightweight
- Quick change system for adapters M3, M4, M5 and M6
- Use a pressure regulator AR20-F02E-B to set the force of the tool for the chosen rivet nuts.

Type	Air consumption l/s	Air connection	RPM min ⁻¹	Sound level dB(A)	Weight kg
