CORDLESS RIVET NUT SETTER

RRI-BRN08M8 & RRI-BRN18M8

PRECISION IN EVERY RIVET NUT

USB-port

Display

Rivet Head M8

The Red Rooster Cordless Rivet Nut Setter is built for high-accuracy assembly applications where speed and operator comfort matter. Featuring a brushless motor, 18V Li-Ion battery, and compact, lightweight design, it delivers reliable, cordless performance shift after shift.

With easy programmable torque and speed, every rivet nut is set with precision within the set tolerances. The LED status indicator provides real-time feedback (OK/NOK, Reverse, Battery Low), while the contactless trigger and forward/reverse switch ensure long-lasting durability. The auto reverse is time adjustable for extra comfort for the operator.

Ideal for process-controlled environments, it also includes group check and counting features for smart productivity monitoring. Entering a PIN code prevents settings from being changed accidentally.

Type	RPM	Torque (Nm)	Weight w/o battery (kg)	Max. capacity	mm A	mm B	Vibration level (m/s ²)	Pulling force (N)	Battery voltage (Volt)	Battery type Li-ion (Ah)
RRI-BRN08M8	220 ~ 1100	1,5 ~ 8	1,63	M3 ~ M8	203	241	<2,5	12.000	18	2,5 / 5,0
RRI-BRN18M8	120 ~ 500	2 ~ 18	1,63	M5 ~ M10*	203	241	<2,5	20.000	18	2,5 / 5,0

Battery, charger and rivet head to be ordered separately. * M10 rivet nuts in ALU only.

Type	Order Number
Rivet Head M3	220-PNS1010-7103-B0
Rivet Head M4	220-PNS1010-7103-C0
Rivet Head M5	220-PNS1010-7103-D0
Rivet Head M6	220-PNS1010-7103-E0
Rivet Head M8	220-PNS1010-7103-F0

Type	Order Number
Rivet Head M10	220-PNS1010-7103-G0
18V 2.5Ah Battery, Li-ion	BB200D-325
18V 5.0Ah Battery, Li-ion	BB200D-350
18-20V Charger	B84192B
